Therapeutic Touch® practitioners who desire to build on knowledge, skills, and insights acquired from the Foundations of TT course and from regular TT practice will find this course valuable. You will enhance your Inner Self connection and your connection with your healing partner through online, distance TT practice, reflective dialogue, and a variety of contemplative practices. Your understanding of the TT process will broaden as sound, color, imagery, and awareness of the wholeness of the HEF are explored. In addition, you will explore approaches to assisting individuals experiencing a variety of energetic imbalances. All of this can be experienced in the comfort of your own home and in a supportive zoom environment. Join with other TT practitioners as we learn and grow together with TT.
