Let's join together and identify strategies that share the 'gift of TT'. Each of us can speak about the incredible 'gift' Therapeutic Touch® (TT) has been to us personally and professionally. Our national TT community's desire is to reach people who want and need TT. Where do we find these people and what is the best way to connect with them so they know and understand that TT addresses their needs? Every member of our TT community is invited to gather together, to think 'outside the box', and identify unique strategies that speak to the 'heart' of people who are searching to fulfill their need for connection and for healing. Let's create connecting paths that make TT a household name and serve our neighbours, our community, and our country at a time when chaos needs to be replaced by peace and harmony.
